

QUALITY POLICY

Accutech Packaging Private Limited is dedicated to setting the benchmark in the Self-Adhesive Label printing and Barcode Label & Thermal Transfer Ribbon industry by prioritising precision, innovation, and customer satisfaction.

Our strategic direction revolves around implementing advanced technologies, stringent quality control measures, and continuous improvement initiatives to consistently deliver superior products that meet and exceed the diverse needs of our clients and their label applications.

We will strive to achieve growth in the market and increase customer satisfaction by:

1. Providing consistent quality of products and service to our valued customers and gathering their feedback to better understand current expectations & future requirements.
2. Exercising uncompromising control over all of our processes and raw material sourcing.
3. Complying with applicable legal & statutory requirements and continually improving the effectiveness of our Quality Management System.
4. Creating an environment for teamwork and collaboration to continually improve & innovate our processes.
5. Reducing wastages and increasing efficiencies by optimizing processes, identifying & reducing over-processing, and adopting new technologies in ERP systems, automation, and equipment.
6. Increasing our marketing presence by communicating our capabilities to new customers and industries as well as building better relations with existing business partners.
7. Strengthening our teams to increase knowledge, skill, experience, and capabilities on an organisational level in order to meet our Quality Objectives.
